Job Vacancy

ISC Germany (www.isc-germany.com) is a training and research centre for the leather and footwear industry, its suppliers, and for trade. Our main activities are: We offer a short-term further education programme for shoe industry and trade as well as mid- and long-term in-service courses. We are specialised in conceiving customized trainings focussing on the technical aspects of industrial shoe production. Beyond, we work in publicly funded research projects, and carry out contract research.

To reinforce our team we are seeking to fill the following full time position as soon as possible:

Trainer (f/m) for Product Development and Shoe Production

Tasks

- **Conceive trainings for our customers and conduct these trainings in Germany and abroad**
- Create curricula as well as detailed training material for trainers and course participants
- Develop or co-develop ISC manuals
- Impart theoretical and practical knowledge in product development and shoe production

Qualification

- High level of professional competence, shoe-technical job experience
- Good proficiency in spoken and written English, good command of MS Office
- Paedagogical skills
- Team player, sense of responsibility, flexible
- Confident and polite manners towards the customers
- Willing to travel (our trainings mainly take place in Germany; however, travel abroad Deutschland is part of the job as well)

Should we have been able to raise your attention and should you be searching for an interesting and varied position in a dynamic team and in an international environment, please address your application to uwe.thamm@isc-germany.com.
